

1. GENERAL CONSENT TO MEDICAL TREATMENT

I hereby request and consent Franciscan Physician Network (this practice) and their employees and agents ("Provider") to attend me during my treatment and perform routine tests and procedures and to provide certain health care services as prescribed for my health and well-being. I acknowledge that no representations, warranties, or guarantees as to results of cures have been made to me by Provider, nor have I relied upon any such representations, warranties, or guarantees. I understand that physicians who hold limited licenses to practice medicine and are currently in residency programs and/or other health care programs may assist with my care and treatment, within the scope and limitation of the applicable health education program, during my office visit. Resident physicians and other students of health care will be supervised by instructors or office staff.

2. TELEHEALTH

We are providing this information on behalf of the Healthcare Providers: Your clinic visit may be conducted through a Telehealth visit. Telehealth visit involves the use of electronic communications to enable health care providers at sites remote from patients to provide consultative services. The information obtained in this visit may be used for diagnosis, therapy, follow-up and/or education, including live two-way audio and video and other materials (e.g. medical records, data from medical devices).

The communications systems used will incorporate network and software security protocols to protect the confidentiality of patient information and will include reasonable measures to safeguard the data and to ensure its integrity against intentional or unintentional corruption.

A visit summary will be provided to you after each visit which may be kept for your records and may be shared with your local primary care or other provider, as appropriate.

Anticipated Benefits of Telemedicine:

- Improved access to care may enable a patient to remain at his or her home, office or remote site while consulting with a clinician.
- More efficient medical evaluation and management.

Possible Risks of telemedicine:

As with any medical procedure, there are potential risks associated with the use of telemedicine. These risks may include, without limitation, the following:

- a) The laws that protect privacy and the confidentiality of medical information also apply to telemedicine.
- b) Telemedicine may involve electronic communication of your personal medical information to health service providers who may be located in other areas, including out of state providers.

3. CONSENT TO PHOTOGRAPH

I understand photos and/or video may be taken during the course of or in connection with my visit and/or the care and treatment I receive.
